[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO JULY 27.

General European News.

NEW YORK, July 27.—A letter from Alexandria, Egypt, states that ex-Secretary Seward passed through that city recently en route to Constantinople. While in Alexandria he was the guest of the Khedive and recipient of ostentatious attention. It is thought Seward and party will at once set out on the home journey.

A cable dispatch states that the American Commission from the Evangelical Alliance had several interviews with Prince Gortschakoff, who has treated them with marked courtesy and distinction. They are constantly visited by distinguished Greek and Protestant christians. They speak very encouragingly of the prospects for the accomplishment of their mission, and allude to Gortschakoff's cordial reception as an omen of success. The mission will be accorded an audience with His Imperial Majesty some day next week.

The Lutheran magnates who are now in St. Petersburg place strong hopes in the influence which the Commission will be able to exert in behalf of their faith at the coming interview with the Emperor Alexander. On the other hand those intimate at court affirm that the Evangelical Alliance will be told that the statement in regard to the persecutions of Lutherans in the Baltic provinces are grossly exaggerated, but that the Imperial Government will order a thorough investigation to be made in order to demonstrate their assertion. American gentlemen will then be referred to Gortschakoff, and finally ushered with kindness from the Imperial palace.

On Monday the Czar was at the castle of Igdelhim, in Bavaria, where he was visited by the Emperor of Germany, the two Monarchs remaining together during the day. His majesty of Russia left Igdelhim yesterday for St. Petersburg, and will arrive here to-morrow. Soon after his return the Emperor Alexander proposes making a tour of Caucasia, and will probably be accompanied by the Czarowitz and his youngest son and the Grand Duke Vladimir, lately returned from England. Great preparations are being made in Slaveropol in Caucasia, and Tiflis in Georgia, for the Czar's reception.

The Grand Duke Alexis is at Cronstadt completely absorbed in the equipment of his squadron for the voyage to America. The fleet will be by far the largest that ever left Europe, and sails August 30th for New York.

The Slave Trade.

LONDON, July 27.—A Committee of Commons upon the slave trade will meet Monday next to examine the British Consular Havana relative to the recent landing of a cargo of slaves in Cuba.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, July 27.—It is reported that materials for a new daily paper, to be published at Sacramento in the interest of the Democracy, have been purchased here this week.

It is reported that the lease of the furniture of the Cosmopolitan Hotel has been sold to Seymour & Co., of the Russ House, and that after the change of proprietorship, it will be run on a cheaper scale than heretofore.

Arrived—Steamer *Constantine* from Panama, Mazatlan and Cape St. Lucas. A miscellaneous of the latest pattern, which was used at Paris, is among the articles on her freight list.

INTERIOR CALIFORNIA DISPATCHES.

The Troubles in Amador County.

SUTTER CREEK, Cal., July 26, 2:10 P. M.—Hatch is dying. McMenomy is dead. Many think there will be an outbreak of the rioters to-night. The Leaguers display a spirit of desperation for revenge of the death of McMenomy. Superintendent Steinberger, of the Amador mine, has been threatened with violence, and his friends are urging him to leave. He says he will not go back. He will stay at the mine if death overtakes him.

JACKSON, Cal., July 26.—W. Bennett left this place last night—whereabouts not known.

SUTTER CREEK, July 26, 10:10 P. M.—Things are quiet as far as the late troubles are concerned.

A fire has just broke out in Badger shaft of the Amador mine. Great efforts are being made to extinguish it. Most of the people of this city are present at the mine. Great excitement prevails. The shaft is closed and employees are running water down it. Steinberger has a heavy guard at the scene. As the Badger shaft is only used for hoisting water from the mine, it was impossible for it to catch fire by accident. It was undoubtedly fired by some of the League or one of their hired tools. Fears are expressed that this is an initiatory step on the programme for destroying all mines and visiting vengeance upon the heads of those who have assisted in thwarting the desires of the Leaguers to run the mines to suit themselves. Murders and assassinations may follow.

POLITICAL ANECDOTE OF THE LAST CENTURY.—The following curious anecdote is related in Paine's "Rights of Man," at page 68 of the London edition of 1791:

"I will introduce an anecdote which I had from Dr. Franklin:

"While the Doctor resided in France as Minister from America, during the war, he had numerous proposals made to him by projectors of every country and of every kind who wished to go to the land that floweth with milk and honey, America; and among the rest there was one who offered himself to be king. He introduced his proposal to the Doctor by a letter, which is now in the hands of M. Beaumarchais, of Paris, stating, first, that as the Americans had dismissed or sent away their king they would want another; secondly, that he himself was a Norman; thirdly, that he was of a more ancient family than the Dukes of Normandy; and of a more honorable descent, his line having never been bastardized; fourthly, that there was already a precedent in England of kings coming out of Normandy. And on those grounds he requested his offer, enjoining that the Doctor would forward it to America. But as the Doctor neither did this, nor yet sent him an answer, the projector wrote a second letter, in which he did not, it is true, threaten to go and conquer America, but only with great dignity proposed that, if his offer was not accepted, an acknowledgment of about £30,000 might be made to him for his generosity."

A REMARKABLE DREAM VERIFIED.—The Richmond *Whig* of June 27th has an account of a brutal murder committed across the border, in Wilkes county, North Carolina. The circumstances are not a little remarkable. The account is as follows:

It appears that a gentleman, residing in that county, a few days previous to the murder, sold to a neighbor a tract of land for which he received $1,000 in cash. Business calling him away from home soon after, he left the money with his wife, and on returning he stopped over night with a friend living some ten or twelve miles from his home. In the night he dreamed that some man entered his house, murdered his wife and two children, stole his money and destroyed his property. Knowing that he had left the money with his wife, he became uneasy and restless after his dream, and requested a pedlar who was stopping at the house with him to accompany him at once to his home, for he feared there was a reality in the dream. On arriving at his house, to his horror he found his wife murdered and two men sitting at a table counting out the money he had left with his wife. He and the pedlar, being armed, immediately fired upon the men and killed them, who turned out to be the man to whom he had sold the land and from whom he had received the $1,000, and his son. This is one of the most atrocious murders upon record, and shows what foul deeds money will send men to commit.

Miller, the Oregon poet, is expected soon in Boston.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

BY ATLANTIC CABLE.

ROME, July 27.—The Pope in reply to the address of the Roman Academy, remonstrating against doctrines which are antagonistic to the spirit of modern times, disclaims any intention on the part of the Papacy to lay claim to intermediate power to dispossess sovereigns or to resume direction over worldly affairs of nations. In ancient times, says his Holiness, Christian nations revered the Pope as arbitrator between sovereigns and the people because of disagreement. Services have been rendered by the Papacy preventing wars, and healing up divisions among the nations of the earth.

EASTERN STATES.

New York News.

NEW YORK, July 27.—Considerable excitement was occasioned in Hoboken last evening by the breaking of the bridge leading to the city. About 200 persons fell into the water. All were rescued.

The Italian Association of this city, named Fraternita Nazionale, has resolved to celebrate the Italian unity and the removal of the Capital to Rome. It was unanimously agreed at the meeting, however, that there should be no procession in the streets.

The Late Riot.

MORE FROM THE NEW YORK PRESS.

[From the Tribune.]

Those frightful scenes will not cease until that corrupt party, which depends for its existence upon the votes of the ignorant and vicious, loses its tyrannical control of our public life. It is, in itself, organized lawlessness and pillage. It incited, through the infamous speech of the man it had made Governor, the three days revel of crime and treason, which almost neutralized by its shame the new glories of Vicksburg and Gettysburg. It provoked and palliated the riotous attacks a year ago, and this year, with the most cynical and vulgar insolence, it dared to give up to the mob the last pretence of respect for the laws of the land, where they conflicted with the caprices of its voting men. Our servants were raised on Tuesday's demand they could not lay on Wednesday. The stain of murder is on their hands, and they may scrub and divide it as they best know how.

[From the Sun.]

The Democracy of the nation ought to spew Tammany Hall out of their mouths. They have incurred the country with their shameful terror about a riot, and have done their utmost to produce a riot, when, if they had possessed ordinary courage, there was no more to fear than one. It was pure cowardice which led A. Oakey Hall to issue Kelso's infamous order. And was there no cowardice in the delay of Governor Hoffman's proclamation on Tuesday? And was there no cowardice in the final appearance of that proclamation on Tuesday? Was it not something forced from the Governor by a public feeling which he had not shared, but dared not resist, even to save his friends and backers? Down with all cowards, and up with men of principles, conviction and courage!

[From the Post.]

There is one use which can and ought to be made of the events which have filled all honest men and women in New York with indignation and alarm. That is, to form and perfect an organization of honest citizens, whose object shall be to dethrone the shanks, the reckless and corrupt demagogues, who misrule New York, and whose flattery of the mob it is which has brought this last disgrace upon us, and moves every honest man's censure in his home.

Cholera.

Epidemic cholera is generally described as having originated at Jessore, in the delta of the Ganges, in 1817, and as having spread thence over Hindostan, and ultimately to Europe. Since 1817 Europe has been visited by three great epidemics of cholera; namely, 1832, in 1848-49, and in 1854; and at the present moment it threatened with a fourth. During the past autumn the disease has appeared at Ancona and Marseilles, and at many other places in the basin of the Mediterranean. In England and Wales, cholera destroyed 53,293 lives in 1849, and 20,097 in 1854.

Although the great epidemics of cholera have appeared to take their origin in India and gradually to have spread to Europe, following often the lines of human intercourse, the evidence in favor of its being a very contagious malady is very small. The attendants on the sick are rarely attacked; and, on the other hand, the disease has often appeared in isolated localities, where it is impossible to believe that it was imported. It is a remarkable circumstance also, that some of the greatest epidemics which have occurred in India, as that of 1869, have shown no tendency to travel to Europe, notwithstanding the constant communication that exists.

Even on the supposition, then, that cholera is of necessity imported from India, there must be something as yet unknown to us that favors its transmission at one time and not at another. But it is very doubtful if the disease is imported in the manner generally believed. Unequivocal cases of "Asiatic cholera" have been met with almost every year in the intervals of the great epidemics; and as Dr. Farr has observed, it is probable that the true cholera has always existed in England.

The researches of the late Dr. Snow rendered it highly probable that the disease often arises from drink water impregnated with the *fermenting* excreta of persons suffering from the disease; and if this be so, from what we know of other diseases, it is not unreasonable to infer that, in certain conditions of the atmosphere the poison of the cholera may be generated during the fermentation of the excreta of healthy persons. It can readily be conceived how the necessary meteorological conditions might originate in the East and gradually extend to this country, and thus lead to the supposition that the disease has been propagated by a specific poison.—*Home and Health.*

THE NEW YORK RIOT—A PARALLEL CASE.—A correspondent of the New York *Evening Post* in looking through his experience for a parallel to the sagacious and equitable decision of the New York city rulers to suppress the Orange procession lest it provoke the Hibernians to riot finds but one case that is put to the point, and it is this:

Many years ago, in an interior county in Illinois, there was an old lawyer who had borne sway at the Bar so long and so uninterruptedly that he regarded the court and jury as his private property, and by a sort of quiet acquiescence such had become the general idea. At length, however, a young lawyer moved into the county, who at once determined to contest the supremacy of the autocrat. One day, in an important and hotly-contested case, he followed up the old judge with such audacious vigor and success that at length the veteran's temper gave way entirely, and he proceeded to pour out on the young counselor's head such a torrent of furious denunciation that everybody expected a scene of violence, or else that the youth would subside into nonentity. But just as he was getting on his legs to reply, what did the Court do? Just what Mayor Hall has done!

"Mr. Smith," said His Honor, "if you don't stop making Judge Jones swear so, this Court will commit you for contempt, sir!"

OREGON.

Albany is doing its usual trade and is realizing some substantial improvements.

Cromwell & Yeaton will re-build their saw-mill recently burned in Columbia county.

Three car loads of linseed oil were shipped a day or two since from the oil works at Salem. From here it was shipped to San Francisco.

The academic year at Pacific University, Forest Grove, will commence the first Wednesday in September instead of August, as stated erroneously by us a few days ago.

We hear that the view of the railroad survey to Columbia City lots at that place are already selling at something like fancy prices. Wonder if that isn't the object of the railroad survey?

Umpqua hams have lately attracted some notice in the San Francisco market, and it is said that only a little more care in packing is necessary to make them sell readily and at good prices.

THE TERRITORIES.

The property of King county, W. T., including the town of Seattle, is assessed at $1,025,670. Last year, $822,793.

A body of land, 320 acres, near Seattle, has been sold for $30,000. The purchaser will survey it as an "addition" to that town.

A. Knapp has been appointed P. M. at Knapton, (Cementville) W. T. The office has been opened, the first mail having been sent out on the 25th.

On Friday last a Mrs. Steinway committed suicide at Seattle by taking poison. She was a German and had been deserted by a man to whom she was married last spring.

There is now in Seattle a feeling of assured confidence about the terminus of the Northern Pacific Railway being located at that town. About forty other towns are equally "assured."

A youth named Frederick H. Whitworth, of Washington Territory, carried off the first honors of the senior graduating class at the Oakland University, California, and received the degree of A. B.

The Seattle coal mine is being operated to fuller advantage under the sole management of Mr. Dinsmore. With the present incomplete means of transport about fifty tons a day are sent to the shore, and it is expected that in a short time there will be the means of sending one hundred tons per day.

POLITICAL NOTES.

There is no longer any doubt that George H. Pendleton is a candidate for Senator from Ohio, to succeed Senator Sherman, whose term closes on the 3d March, 1873. The Cincinnati *Enquirer*, which has always spoken for Mr. Pendleton, says the Democrats will elect him. But they must first elect the Legislature.

The *Oregon Herald* severely censures Governor Hoffman for permitting the Orange parade. The Governor is, indeed, censurable, but his fault was in not acting with more promptness. His order was a desperate effort to retrieve the false position which the Democratic party had taken, and came too late to avert bloodshed.

George B. McClellan, the General of Manassas and Peninsular fame, in a letter to the Tammany Democracy of New York, advises them to "show the negro who his real friends are," and by this means they will be enabled to turn eventually "in their own favor the weapons so carefully forged for their own destruction." He showed himself to be the real friend of the negro when he was on dress parades on the Potomac, by sending troops of these loyal people who came into his lines back to their rebel masters.

PERSONAL NOTES.

Mrs. Jay Cooke, wife of the eminent banker, died at Ogontz, the country residence, near Philadelphia, on the 22d inst., of disease of the heart.

The ex-Empress Napoleon recently paid a visit to London, and launched at the Army and Navy Club, where her presence attracted considerable attention. During his former residence in London he lived at this club, of which he has now become again a member.

Albert Bierstadt, the renowned landscape painter, arrived in San Francisco, July 20th, and is stopping at the Grand Hotel. He contemplates an extended professional tour on this coast, during which he will make studies of some of the most scenery for future use.

The Empress Carlotta, the widow of Maximilian, is in a condition which is considered hopeless by the physicians in attendance. Having exhausted their skill, they pronounce her illness beyond the reach of medicine, and her death is impending, and may occur any moment.

SAN FRANCISCO COMMERCIAL ITEMS

Considerable supplies of bacon have been received from Umpqua and are selling at fair prices.

Teas by recent arrivals are of high cost, being in the hands of a few men who took advantage of the demand for shipment East by rail.

The stock of mackerel is very large and prices low. The stock of Pacific codfish is limited. It is believed, however, that with more care in curing this coast may soon become independent of Cape Cod.

Immense sums of gold are now sent from California to the East through the mails. It is asserted that $6,000,000 has been forwarded in this way since January 1st; but there is no means of verifying this statement.

Bay salt, made at the Crystal Works, opposite San Francisco, is claimed to be equal to the best Liverpool, and an agency for its sale will be established in Portland. It is asserted that it can be sold cheaper than the imported article.

One thousand kegs of horse shoes have arrived by steamer for Government use. The stock in private hands is small. Stocks of nails have dwindled below those of former seasons. The stock of bagging is large and the market flat.

Lime from the Santa Cruz quarries has heretofore been about the only lime in market. But a new source of supply has been found in the Mount Diablo district, where large quantities are now produced. It is an excellent article. Shipments of cement from New York have largely increased.

CURRENT NOTES.

It is expected that two or three hundred women will attend the Michigan University at its next term. About thirty entered last session, and reports say that they all held their own with the male students in the entire course of study, including the higher mathematics, physical science, Latin, Greek, and medicine or law. In the regular examinations at the recent commencement not one of them failed.

The city of Olney, Illinois, is the county seat of Richmond county, and is a smart thriving place of 5,000 or 6,000 people. Recently a patent from the United States has been issued covering almost the entire land on which the city is located. The patent was issued to E. S. Wilson, a lawyer of Olney. He claims that this city is built on Government land,—former titles being worthless. Great excitement is, of course, the consequence.

Phillips's Vagaries.

[From the New York Tribune.]

Mr. Wendell Phillips was always fond of novelties. It was enough for him to know that somebody else had mounted a hobby of his, to cause him to give it up. He was a pretty good Republican until there was a Republican party organized and with a promise of victory. He formally denounced and abandoned it as soon as it became practicable. When the loyal people of the North stood as one man by President Lincoln in his defence of the national existance, Mr. Phillips called him a slave-hound, and would not be comforted because Gen. Fremont was not in the White House. The rose that all are praising is not the rose for the Boston orator. If by any accident he assumes a position which is a just and reasonable one, and which other men come to occupy, he moves away from it with the same disgust which Daniel Boone felt upon being informed that a settler was building a cabin ten miles from him. "It is getting too crowded around here," said the taciturn hunter, and moved a few hundred miles further West. The popular opinion of the country has made such rapid advances of late years that it has kept Mr. Phillips moving very lively to avoid being on the winning side

The Daily Oregonian.

FRIDAY MORNING, JULY 28, 1871.

The "Herald" Unmuzzles its Wisdom.

Just to show how biased, unjust and lacking in common discretion a Democratic editor who views everything in a partisan light can be, we quote the following from the *Oregon Herald*:

The Radical papers in New York are responsible in a very large degree for the wanton military murders in New York City on the 12th inst. They did all that was possible to bring odium upon the position taken by Mayor Hall, which was eminently legal; which would have abridged the rights of no one, and which would have prevented the wholesale slaughter of the innocent citizens of that city by the military, and clamored for the parade. Well, the parade was had. Two hundred roundhead Orangemen, guarded by two thousand military, marched through the streets, while the latter, shooting right and left, killed and wounded about two hundred innocent people.

This from a Democratic source shows how totally unsafe the rights and liberties of the people would be in Democratic hands. The *Herald* talks of "wanton military murders." All the testimony shows that the rioters began the attack, and the military fired only after they had been assailed with bricks, stones, cudgels, and even with firearms. It is said that the act of Mayor Hall prohibiting the procession was "eminently legal," and "would have abridged the rights of no one." Precisely as "legal" would be an order from the Mayor of Portland prohibiting a meeting or procession of Odd Fellows in our streets, because the Masons, Turners, or other associations might not like it, and had threatened to attack and kill or disperse its members. In the opinion of the *Herald*, when one party says that another party shall not peaceably assemble or parade, and the authorities join the latter party and forbid the assemblage or procession, "no one's rights are abridged." Of course that is because the party prohibiting the parade are the *Herald's* political friends and form the chief voting strength of the "Democracy." Nevertheless such action would take away from the other party a right which is expressly guaranteed by the National Constitution and by the Constitutions of all the States. The *Herald* indicates that if its party were in power it would give its opponents no rights at all.

The question at issue was not a question respecting the merits of a feud between Orangemen and Catholics, but simply a question whether one class of men, no matter who, should prevent another from a lawful and peaceable assemblage. But the *Herald* ignores this vital principle, and sympathizes with the rioters simply because they form the chief voting strength of its party in the city of New York.

An Erroneous and Pernicious Doctrine.

The Catholic press of the United States, it would seem, is falling quite too much into the habit of connecting Church and State affairs. A few days ago we quoted from the *Catholic World* a dictum that "the State has rights only in virtue and by permission of superior authority, and that authority can only be expressed through the Church." From the *Tablet*, another Catholic journal published in New York, we now learn that "the State has no right to do or command anything not authorized by the law of God, *as interpreted, declared or defined by the infallible Church of God.*" Further, that "the State is bound by what the Church teaches and declares is the law of God." This is the doctrine of a despotic priesthood. It is unrepublican, monstrous, and totally antagonistic to American ideas and principles of liberty, of republicanism, of freedom of conscience, and of separation of Church from State. Such a doctrine would, of course, establish a State religion among us and place the control of affairs in the hands of the priests of that religion. Many publications professing to be in the interest of the Catholic Church have of late been uttering such doctrines as the above. This is to be regretted. Such a course is calculated to create religious prejudices and animosities, from which our country should be wholly and forever free. The inculcation of erroneous ideas always leads to unhappy results. To sow pernicious doctrines is to prepare for a harvest of evil fruits. Our Government, our institutions, our liberty, cannot stand on such ideas as those we have quoted above; and to induce any considerable number of our people to accept those ideas would be to make a religious agitation and finally a religious war, certain. Hence, while perfect freedom to express any and all opinions is guaranteed in this country, yet such unrepublican and mischievous utterances as those we have quoted are to be deprecated—the more so when they emanate from sources which to some minds may carry with them the influence and sanctity of religious authority.

Mrs. Duniway in her *New Northwest*, speaks justly of C. H. Miller when she speaks of him as a "truant husband and father," and says that "when a man barters connubial constancy and matrimonial honor for poetic fame he has paid all the bubble is worth." These are correct sentiments, and Mrs. Duniway is probably right again when she predicts that the bard will see the day when he will realize the truth and force of them. Happiness never yet visited the man who, in seeking the bubble reputation, repudiates his duties as a husband and father; and let such man soar as high as he will, his fame will be darkened and his reputation overclouded by the memory of his conduct. Moral considerations invariably enter into the final, deliberate judgment of mankind upon every man and his works, and brilliancy alone, however striking it may be, will not rescue any man from this deliberate, final judgment.

Eastern papers say that the narrow gauge idea in railroads is rapidly taking form and realizing itself in visible manifestations, in this country. Already cars and locomotives have been ordered for no less than five different narrow gauge railways—one in Colorado, which is to extend from Denver to El Paso, eight hundred and fifty miles; two in Georgia, one in Arkansas, and one in New York. Cars enough for a passenger train have been already built in Wilmington, Delaware.

The Northern Pacific Railroad Company have a very great number of engineering parties in the field, and almost all parts of their proposed route are now being examined. They wisely think it best to take time to find the most practicable and shortest route, as they will thereby save time in the end and many millions of dollars.

British Columbia, says the Victoria *Colonist*, is now a Province of the Dominion of Canada. As such it possesses a constitution conferring full powers of self-government in respect to all matters of a provincial character. As a portion of the Dominion it comes under the constitution and will be amenable to Canadian laws.

PACIFIC COAST DISPATCHES.

SPECIAL DISPATCHES TO THE OREGONIAN.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, July 27.—Notwithstanding the positive denial of interested parties, the rumor that the old and new gas companies have agreed to consolidate is renewed, and parties who ought to know, assert positively that the arrangement was made some weeks since.

The *Constantine*, from Panama, brought no destitute Magdalena Bay victims this trip, but there are still about fifty to be brought away, including several women.

At the trade sale of Japanese teas, to day bidding was not very lively and prices realized too low to be satisfactory to importers.

Stocks continue to decline. The Amador difficulties assist in depressing the market.

Nothing will be left undone to make the Republican demonstration Saturday evening the most imposing seen here for years. A special steamer will leave Sacramento Saturday morning to convey parties attending at excursion rates.

Parties have made arrangements to import a number of fine-wooled Australian sheep to improve the breed in California.

Marcus R. Meyer, President of the Young Democracy, was presented with a costly badge by the Club to-night.

The Democratic County Committee appointed a full delegation to the nominating Convention, which is directed to meet to-morrow night. A number of those already appointed declined to serve. The two committees operating outside have been in secret session this evening, and it is understood that they will appoint a nominating convention of their own, ignoring the County Committee altogether, and discarding the primaries as unnecessary. Altogether the split appears now more complete than ever.

INTERIOR CALIFORNIA DISPATCHES.

Dispatches from Sutter Creek.

SUTTER CREEK, July 27.—The fire in the Bagor shaft of the Amador mine, was completely extinguished by two o'clock this afternoon. The damage done was very trifling, and limited to the spot where it broke out, sixty feet from the surface. The necessary repairs are now being made. The shaft has not been used lately for any other purpose than that of hoisting water. The cause of the fire appeared unaccountable. Steinberger, the Superintendent, believes it to be the result of accident, as the top man has been in the habit of throwing ashes in the water buckets for the purpose of stopping leaks. Supt. Steinberger supposes that in taking ashes from under the boiler and throwing them into buckets, some of them may have fallen into the shaft and alighted between the timbers. Suspicions of it having been the work of an incendiary are altogether dispelled. Matters in general are quiet and peaceable, and there are no indications at present of its being otherwise. Fears and suspicions of evil are merely natural products of the present diseased condition of the public mind. Charitable views of expressions by both sides will do more toward restoring confidence than any other agency. The main trouble upon rental terms in the Keystone Mining company, which undoubtedly failed to comply with the terms of the agreement, which terminated in the last strike.

The body of Hugh McMenomy will be buried at 3 o'clock, in the Roman Catholic cemetery. The remains will be escorted to the grave by the Miners' Labor League. The body of E. E. Hatch, late clerk of the Amador mine, will be buried to-morrow in Sutter Creek cemetery, escorted by the Odd Fellows.

PALMDALE, July 27.—Two drunken Indians engaged in a quarrel this evening over a game of cards, when one drew a knife and stabbed the other in the back, inflicting wounds of a serious nature. The would-be murderer was arrested and lodged in jail to await the result of the victim's wounds. The Sheriff is trying to find out who sold them the liquor, and if found the guilty parties will be prosecuted.

SAN JOSE, July 27.—Senator Cole and Hon. John A. Bingham, Republicans, are addressing a large meeting at the Opera House this evening. The Democrats also held a meeting this evening for the purpose of forming a campaign club.

SANTA ROSA, July 27.—The Sonoma County Republican Convention met to-day and the following ticket was nominated: J. C. Hong for Senator; Messrs. Hood and Cowen for the Legislature; G. L. Wrattan for County Judge; G. L. Spencer for Sheriff; E. H. Bryant for County Clerk; R. D. Morgan for County Recorder; A. Merstatt for Treasurer; W. B. Haskell for District Attorney; Calvin Lindsay for Assessor; Prof. C. R. Hutton for School Superintendent. The utmost harmony prevailed and great hopes were expressed by the delegation of electing the entire ticket. Hon. Newton Booth and J. G. Eastman are now addressing as large a crowd as ever gathered outdoors in this town. The greatest enthusiasm prevails. Large delegations, with music, from Bloomfield, Healdsburg and surrounding country are in attendance.

SAN MATEO, July 27.—The Republican primary election held here to day, passed off quietly.

VALLEJO, July 27.—Gov. H. H. Haight, Joe Hamilton, J. D. Hambleton and Mr. Gallahan, Democratic orators, were met at the railroad depot and escorted through Georgia and Santa Clara streets to the Metropolitan Hotel, by a delegation from the Vallejo Democratic club, and quite a number of our prominent citizens in carriages and the Frisbie Guard band. They will address the citizens this evening. There was quite a display of hunting during the day. The meeting this evening, bids fair to be a success.

REDWOOD CITY, July 27.—The Republican primary election passed off very quietly in this place to-day.

SACRAMENTO, July 27.—The following officers were elected in the Grand Lodge of I. O. R. M. this afternoon: Great Baobem, W. H. Mills, of Sacramento; Great Senior Sagemore, J. P. H. Wentworth, of San Francisco; Great Prophet, D. Thudercheck, of San Francisco; Great Chief of Records, J. A. Woodson, of San Francisco; Great Keeper of Wampum, Wm. Frell, of San Francisco.

The wife of special officer Lindsay fell dead in her room this morning; cause, disease of the heart.

A party of fifteen miners from Placer county, well armed with Henry rifles, and otherwise properly equipped, arrived here to-day and sumped on the Plaza. They propose going to prospect mines in Arizona.

The Directors of the State Agricultural Society are in session to-night, considering important propositions to make the next State Fair more attractive by offering additional premiums.

REMARKABLE CURE OF MRS. HOOVER.

TUALATIN PLAINS, WASHINGTON Co., OREGON, July 22, 1871.

DR. A. M. LORTEA—I have been troubled with Rheumatism for the past twelve years; my joints, especially those of my feet and hands, were badly swollen, so that I could with difficulty go around. My shoulder pained me a great deal and a LARGE LUMP SWELLING grew out, so that I could not raise my hand to my head.

Since last spring I have been taking your "Oak Weed Remedy," and find myself much improved. The swelling and pain has left my joints and shoulder and the lump OROWTH HAS ENTIRELY DISAPPEARED and I can use my limbs and am far better than I have been for years.

M. HOOVER,

Wife of Hon. Jacob Hoover, ex-Treasurer of Washington county, Oregon. jy25d1y2p

NEW TO-DAY.

WOMAN'S TRUE FRIEND!

MYERS' PATENT COMBINED

FLUTING AND SMOOTHING FLAT-IRON

Patented March, 1871.

THE MOST USEFUL INVENTION OF THE AGE!

THE ONLY PATENT FLUTING AND SMOOTHING Iron ever offered to the public, and pronounced by the Press perfect in itself.

Adopted by all Housekeepers, on its own merits, as the Cheapest and most Perfect household article yet devised.

Advantages over all others—CHEAPNESS! SIMPLICITY! DURABILITY! Requires no rubber to adjust it for Fluting or Ruffling, as is the case with expensive crank machines; the iron is heated in the ordinary manner as for plain smoothing. When desiring to FLUTE or RUFFLE, draw back the latch and it is ready for its work; this simple movement is all that is required. Its entire simplicity is one of its many merits.

It will not injure the finest fabric. It will not rust or destroy your clothes. It is a great saver of Time and Money. It is the only Iron with a "Rolling Motion." Its Fluting surface is one of Polished Brass. No home can afford to be without one.

MYERS' COMBINED FLUTING AND SMOOTHING FLAT IRONS have earned for themselves a popularity which has never been attained by any Fluting Machine. People go into ecstacies over the results accomplished by our Irons, and the longer they are used the more highly do they value them, and no wonder, when we consider that our Combined Fluting and Smoothing Flat Irons, which are no trouble whatever to use and which do plain Ironing as well as Fluting and Ruffling, costs only the very small sum of $4 75 each.

These Irons are for sale only by our Canvassing Agents.

H. T. LEVINS,

jy28d1m Agent for Oregon and Washington Ter.

PARRISH, ATKINSON & WOODWARD,

REAL ESTATE AGENTS,

Corner of Alder and Front Streets,

Have for Sale CITY PROPERTY, FARMS and UNIMPROVED LANDS in OREGON and WASHINGTON TERRITORY.

The following are some of the FARMS and LANDS:

20 acres 1¼ miles from Portland; house and orchard; $2,300.

238 acres 5 miles from Portland; 160 acres fenced; 25 in cultivation; orchard, house and barn; good running water; choice land; price, $5,000, $1,250 down; balance on time.

320 acres, 13 miles from Portland; all fenced; 70 acres in cultivation; $2,700.

675 acres 17 miles from Portland; 450 fenced; 225 in cultivation; orchard, frame house, three barns; will make three good farms; price, $18 50 per acre.

300 acres 14½ miles from Portland; 25 acres fenced; 60 acres in cultivation; good house, barn, orchard and water; choice land on Railroad; price, $5,250; $1,250 down; balance in 5 years.

963 acres 24 miles from Portland; 350 acres fenced; 200 acres in cultivation; house and barn; $17 50 per acre.

160 acres 3 miles north of Vancouver; with improvements—house, orchard, &c.—$1,600.

300 acres 6 miles north of Vancouver; 100 acres prairie; good improvements; $2,500.

Proposals for the Construction of a Portion of the Breakwater at Wilmington, Cal.

SEALED PROPOSALS IN DUPLICATE WITH A copy of this advertisement attached, will be received by the undersigned until 12 M. on the 16th day of August, when they will be opened, for the construction of about 3,700 lineal feet of the Breakwater at Wilmington, Cal., in accordance with drawings and specifications to be seen at the U. S. Engineer's Office, No. 533 Kearney street, San Francisco.

The timber to be used in the construction, will be furnished by the United States, piled on Rattlesnake Island, adjacent to the work.

Bidders will offer for each kind of construction, designated as numbered on the drawings, Nos. 1, 2 and 3, in gold coin, per running foot.

Each bid must be accompanied by a guarantee from two responsible parties to the effect, that the bidder will enter into contract, provided his bid be accepted.

A bond of $5,000, for the faithful performance of the contract, with two responsible bondsmen will be required on the signing the articles of agreement.

The work is to be commenced in the first week of September, or on the arrival in San Pedro of the first cargo of timber and is to be completed on or before the 1st day of March, 1872.

Payments will be made monthly by checks on the Asst. Treasurer of U. S. in this city, to the amount of 75 per cent. of the contract price of work completed and accepted, during the previous month; the remainder to be paid on the completion and acceptance of the whole work herein advertised.

Proposals will be endorsed "for construction of the Wilmington Breakwater."

G. H. MENDELL, Major of Engineers.

TO HOUSE BUILDERS & PAINTERS

"AVERILL CHEMICAL PAINTS."

THESE PAINTS ARE SO WELL KNOWN throughout the Atlantic States and their reputation so abundantly established for

Beauty, Permanence and Economy

That we can confidently recommend and guarantee an entire satisfaction in their use.

THEIR COST is less than pure leads, and covers one-fifth more surface, making them the most economical Paints in the market.

THEIR DURABILITY is unquestioned. They dry hard with a smooth and glossy surface and will not chalk, crack or peel off.

THEIR ADAPTABILITY.—They are already mixed and ready for use (and require no oil, turpentine or dryer). Are sold of any desired shade, by the gallon only.

Testimonials:

Gen. James S. Negley, M. C., Pittsburg, Pa., writes Nov. 19, '70: "I have no hesitation in recommending the "Averill Chemical Paints" to those who regard economy and durability. It weathers our smoky atmosphere better than any I have used. The colors are rich and variable. Altogether I find them the CHEAPEST AND BEST."

"JACKSONVILLE, FLORIDA CUSTOM HOUSE.—It looks as fresh and glossy as when first applied. I do not believe any LEAD AND OIL CAN EQUAL IT. "WM. P. DOCKRAY."

I have carefully compared the cost and merits of the Averill Paints with White Lead and Oil and find 99 cents per gallon in favor of the former.

FRIDAY MORNING, JULY 28, 1871.

CITY.

LIPPINCOTT'S PRONOUNCING DICTIONARY.—The work which is now being issued in Parts by J. B. Lippincott & Co., of Philadelphia, has several features which must commend it to the favor of both scholars and general readers—great completeness and conciseness in its general vocabulary; its mythology; its logical system of orthography; its pronunciation, and its Bibliographical references. It is very highly spoken of by most of these characteristics by such men as Oliver Wendell Holmes, Wm. C. Bryant, John Bigelow, James D. Dana, Benson J. Lossing, James Russell Lowell, and very many other American scholars whose opinions, based as they are upon a critical examination of the Parts issued, are entitled to great respect. Thus far about one thousand pages are printed and the work is to reach about 2,560 pages and to be bound in two handsome royal octavo volumes. It can be bought in Parts (40 of them) or in volume. The work seems, from the examination we have been able to give it, to be a complete and convenient book of reference, both for Biography and Mythology. The matter is greatly condensed in order to give some account of everything within a reasonable compass; and this feature will commend itself to most scholars as an excellent one inasmuch as it enables them to get the substance of any information sought without the time and trouble of going through extended treatises. Its pronouncing feature is peculiarly a valuable one, because almost universally foreign names are arbitrarily pronounced, and foreign words are rarely pronounced as they are spelled. To the scholar or [illegible] as the book will prove an invaluable aid in this respect. Its Bibliographical references are [illegible] equally valuable, as they point at the close of all the principal articles to works containing more extended accounts, and thus enable the reader to pursue further any investigation in which he may be engaged. Mr. R. May of San Francisco is canvassing in this State (now at Salem, we believe) for the sale of the work by subscription.

BISHOP SCOTT GRAMMAR SCHOOL.—The catalogue and calendar of this school for 1871-2 is published. The catalogue contains the names of 73 pupils, who attended the first term of the present year. The next term will begin September 5th, and will end January 31st, 1872, with vacations on Thanksgiving day and from Christmas to New Year's, both inclusive. This school was established in the autumn of 1870. The corner stone of the south wing of the proposed building was laid by Bishop Morris, on the 5th of July of last year, and the school was opened by Prof. C. E. Allen on the following 5th of September. Professor Allen having successfully opened the school and given his place at the end of the first term and was succeeded by the present Head Master, R. W. Laing. The present officers and teachers of the school are Rt. Rev. B. Wistar Morris, D. D., Rector; R. W. Laing, Head Master; Rev. John Hodgkins, M. A., Prof. of Ancient and Modern Languages; Edward Coleman, E. A., Drawing and Painting; Miss Gertrude M. Tuttle, Primary Department; Miss Maria Emery, Matron. The [illegible] of the school house is on high ground, [illegible] the city and commanding a fine view of the Willamette, the Cascade range and the snow peaks toward the north. There are ample grounds for exercise, and a covered gymnasium is to be built for use in winter. The accommodations at present are for about twenty-five boarding pupils and seventy-five day pupils. A superior geological cabinet, large hanging maps, atlases, and [illegible] library are among the facilities for instruction. The rules and regulations, so far as we are acquainted with them, seem to be adapted to the moral and physical, as well as to thorough intellectual training of the pupils.

BACK LANE COMMENCED.—The contractors, Messrs. Hart & Co., on the Oregon Central Railroad, commenced laying track yesterday morning from this end of the Fourth street bridge. For some time teams having been hauling up materials—rails and ties—to enable the work to be pushed along from that point. It is the design of the workers to lay about a mile and a half of track, enough to reach the "great pit," immediately after which, as soon as possible, the track will be laid down Fourth street and then a locomotive will be put on to run the construction cars to the end and dump trains wherever they may be wanted. The special locomotive for this business is expected to arrive within the next few days. The contractors are employing now about three men, scattered along the road for eight or nine miles. It will not be long till the locomotive whistle will wake the echoes on the downside of the other side of the summit, toward Hillsboro.

PASSENGERS FOR PORTLAND.—The following [illegible] per San Francisco per *Orizaba* July 26: Mrs Whitehouse and 3 children, J K Gill and family, W Brownell and wife, S Frobyan, B [illegible] M Gewin, F Zahner, E B Goodman and wife, S Myer, F F Cornell, Rev J L Cooley and family, Mrs H Rogers, Mrs J Wiggin, Miss [illegible] Smith, U Simon, G S Pettigrew, J H Foster, [illegible] Mrs W C Bell, P Houghton, F C Hath, [illegible] Field and family, Miss A Judge, Mrs E [illegible] Frye, Miss E Waine, Miss Stout, J N Aigh, [illegible] S H Reed, G Baumas, Jno. Pluder and wife, J Pieper and family, Mrs H McCarter, [illegible] Cary and child, W G Hall, M Cushing, [illegible] Mrs Smith and infant, Mrs H R Leonard and son, H E Bonesteel, Jos Bonesteel, E [illegible] Field and family, G Wormaker, J W McCraken, J C [illegible] and family, Capt L S Crockett, Rev D C [illegible], J Ewry, F Mullen, Geo Rebrecker, C [illegible], F S Olmstead, P Corlis, J C Strater and daughter, S Murphy, H Evans, G Heintz, J [illegible] S Tichner and son, Mrs M J Mulkey and 3 children.

SKATING WALTZ.—We have received from Gray's Music store a "New Skating Waltz," [illegible] and arranged by an anonymous composer and respectfully dedicated to the Pavilion Skating Club, San Francisco." We are not much of a judge of music, but the notes look as if they [illegible] to skate by, provided the artist were [illegible] educated to the mysteries of the rollers. [illegible] also have about the right proportion of [illegible] crescendos, slurs, etc., and to end with just about the right number of stars—that's where the dancer sits down, without waiting to find a chair or bench. We recommend it.

PUBLIC SPIRIT OF OREGON.—The *Pacific Rural Press*, of the 22d inst., mentions the numerous special premiums offered by citizens of Oregon for various exhibitions at the next State Fair, as a manifestation of public spirit which it would be well to see imitated by the people of California. It says: "These offers come from public spirited citizens, and this testify to their earnestness in the agricultural progress of their State. We are curious to see a full list of these premiums, and if it was before us might be provoked to publish it as an incentive to a similar public spirited action on the part of the people of California."

SUSPICIOUS ITEMS.—The bark *Whistler*, sailed from San Francisco on the 14th for Portland and is now about due.

The bark *Lyra* from this port last January, with cargo of wheat, arrived at Havre, via Queenstown, July 23.

The *Josie McNear* went down the river Wednesday to tow the *Skiddaw* up. At 1 o'clock yesterday afternoon the vessel and tow were at Kalama, making slow headway up against the strong south wind. She will probably be at the city this morning.

A FINE SPECIMEN.—Messrs. Knapp, Burrell & Co. have on exhibition in the front part of their warehouse a Bain wagon, the running gears of which are put up without paint in order that people may see what kind of timber is used in this celebrated manufacture. We think there will be no difference of opinion among any who examine this wagon as to the superior excellences of the timber and the finished workmanship.

PIERCE INDIANS.—There are fresh complaints in the north end of the city about drunken Indians in the suburbs. Is it not time that this rendezvous of bad Indians and worse white men, were broken up? The time will soon come when the outraged citizens of that end of the city will take the matter in their own hands and rid themselves of the pestiferous nuisance by strewing the ground with a few "good Indians."

SALE OF PICTURES AT AUCTION.—On Saturday, at ten o'clock A. M., Mr. Richardson will sell at C. H. Myers' old place, near the Post Office, a large and very fine assortment of pictures—chromos, lithographs and prints. There are very many of these pictures that are exceedingly handsome, rich and elegant. The sale will afford a first rate opportunity for procuring complete sets for parlors, etc.

NEW STARK AVENUE.—The contractors have now next planking this improvement. The grading and the bridge here been completed.

PERSONAL.

Capt. Charles Holeman of the firm of Harris & Holman, of this city, is off on a tour, and when last heard from was in London.

Mr. J. W. Davis, Deputy County Clerk under Chas. W. Parrish, has gone on a visit to Puget sound, and word was received from him on Wednesday that he was ill at Olympia.

Thos. H. Canfield, Managing Director of the Northern Pacific Railroad, and President of the Lake Superior and Puget Sound Land Company, is expected to arrive out here within the next month.

DEEDS FILED FOR RECORD.

THURSDAY, July 27, 1871.

W. P. Allen to J. W. Shattuck; five and seven hundredths acres near East Portland—$1,500.

Joseph Abercrombie to Chas. A. McDonald, lots 3, 4, 5 and 6, in block 203, East Portland—$750.

J. B. Stephens to J. T. Ghiselin, block 42, East Portland—$900.

J. B. Stephens to B. Goldsmith, block 55, East Portland—$1,000.

Tyler Woodward to R. P. Reynolds, the north half of block 154, Couch's Addition—$3,000.

Phillip Wyman to J. S. Keller, the undivided half of the undivided half of one hundred and forty-eight and 79 100ths acres in sections 10, 11, 14 and 15, township 1 south, range 1 east—$1,125.

Stephen Coffin and C. M. Carter and wife to the city of Portland, the levee property, situated between Clay and Jefferson streets—$2,500.

AMUSEMENTS.

EXCURSION POSTPONED.—We are requested to state that the proposed excursion to Oregon City for the benefit of the Kalama M. E. Church has been postponed till next Tuesday evening, and that all tickets sold will be good for that night.

CANTON GARDENS.—A concert hall is advertised to take place Sunday afternoon, commencing at 2 o'clock.

A GEM FOR THE LADIES.—One of the most complete domestic household inventions is Myers' Patent Combined Plating and Smoothing Flat-Iron. It comprises in all its details, advantages over any former invention; perfectly simple to operate, the finest and most delicate fabric cannot be injured by its use, while the fluting and rolling is accomplished in beautiful style. For durability and economy, in addition to its other qualities, it has only to be seen to be appreciated.

U. S. CIRCUIT COURT.—DEADY, J.—John R. Lambert et al. vs. Geo. W. Vaughn et al.; on motion of counsel defendant, Vaughn, has until the first day of September next to procure the testimony of C. J. Gilbert and Walter Pomeroy, Jr., at to the Power of Attorney from Gilbert and Rockwell to Walter Pomeroy upon terms of $150 for cost to opposite party.

AN ODD ANNIVERSARY.—Yesterday, which corresponded to the 9th day of the Hebrew month Ab, was the anniversary of the second destruction of the temple of Jerusalem. It is a day observed the very orthodox Israelites, by fasting, prayer and lamentation. Not many in America pay the day any observance.

RAIN—DAMAGE TO CROPS.—It is said that the rain which set in yesterday morning will do much damage to crops if it shall continue long. Much of the hay crop is now down and it requires sunshine to save it. There is also some wheat cut, but that can stand a week's rain without much injury.

ROAD AGENTS IN YAMHILL.—It is reported that a couple of the Portland "Rusters" have been nipped in Yamhill, in an attempt to go through a man on the road. The attacked party was too many for them and "took them into camp." We hope the report is true.

DIVINE SERVICES AT THE HOSPITAL.—Several of the clergymen of Portland having volunteered to hold services at the County Hospital, on alternate Sundays, hereafter the unfortunate inmates of that institution will receive Scriptural comforts regularly every Lord's day.

FIRE ALARM.—The alarm of fire at half past nine last evening was occasioned by a burning chimney on Washington street, next door to Anders & Rowe's grocery store. No harm done.

DIVIDEND DECLARED.—The Portland Homestead Association has declared a dividend in favor of the stockholders of $67.50, payable immediately upon the surrender of certificates.

REAL ESTATE AT AUCTION.—On Saturday Mr. A. B. Richardson will sell at auction, for the guardian of the minor Robertson heirs, lots 3 and 4 in block 140.

Try the "Reclaimed Virginia Long Cut Cavendish Smoking Tobacco." Stone, next door to the Postoffice, has it. jel2d1m

JOSEF ARRIVED.—B. L. Stone has just received a large supply of Gold and Silver Watches of all the best patterns made. Also, Gold and Silver Chains for Ladies and Gents and elegant Opera Chains.

Also, a large assortment of the finest Jewelry and Precious Stones, Gold Headed Canes, a large lot of Spectacles, Plate and Silver Ware, and all kinds of Clocks. Mr. Stone is entered with quick sales and small profits.

"A SHORT COLD."—Common.—Few are aware of the importance of checking a "slight cold" in its first stage; that which to the beginning would yield to a mild remedy, if neglected, often attacks the lungs. "Brown's Bronchial Troches" give sure and almost immediate relief. "The Troches" have proved their efficacy by a test of many years; and have received testimonials from eminent men who have used them.

☞ More than one hundred thousand persons annually die in this country from Consumption, which is but the child of Catarrh. $500 reward is offered by the proprietor of Dr. Sage's Catarrh Remedy for a case of Catarrh which he cannot cure. Sold by druggists, or send sixty cents to Dr. R. V. Pierce, 163 Seneca street, Buffalo, N. Y., and get it by mail. Don't get swindled by men calling themselves Dr. Sage; Dr. Pierce is the only man now living that has the right and can prepare the genuine and original Dr. Sage's Catarrh Remedy, and his private U. S. Government Stamp is upon the outside wrapper of every package of the genuine.

A Perilous Season.

Glorious and delightful as the Summer weather is, its tropical heat is a severe trial to the vital powers. Even the strongest are sometimes prostrated by its effects. The common phrase applied to this condition of the body is "general debility." Now, general debility arises from, and includes a variety of ailments. The liver is more or less affected, the bowels are either constipated or too much relaxed, the stomach but half performs the work of digestion, the appetite is poor and the spirits depressed. This is what is called general debility. It is a general derangement of all the physical functions and requires as a remedy a medicine that will regulate them all. Hostetter's Stomach Bitters is specially adapted to this purpose. Its general operation is not confined to a single organ. If the liver is affected, it restores its tone. If the stomach is torpid, it regenerates it. If the nerves are tremulous and weak, it braces and reinforces them. If the mind, which ever sympathizes with the body, is gloomy and despondent, it relieves the difficulty, and soon brings the whole mechanism of the body into harmony with the laws of health.

There is no civilized nation in the Western Hemisphere in which the utility of Hostetter's Stomach Bitters as a tonic, corrective and antibilious medicine, is not known and appreciated. Throughout the Tropics it is considered both by the people and the profession, the standard specific. While it is a medicine for all seasons and all climates, it is especially suited to the complaints generated by the weather, being the purest and best vegetable stimulant in the world.

Beware of the bitters made of acrid and dangerous materials, which unscrupulous parties are endeavoring to force upon the people. Their name is legion, and the public has been cautioned that they are poisonous. Adhere to the tried remedy, Hostetter's Bitters, sold only in glass, and never in kegs or barrels.

A HOUSEHOLD BLESSING.

One that no family should be without. Very warming, very penetrating, very strengthening, very effective. A never-failing remedy for Rheumatism, Gout, Neuralgia, Paralysis, Pleurisy, Sore Throat, Colic, Cramps, Cholera Morbus, Swellings, Stiff Joints, Sprains, Bruises, Headache, Toothache, Earache, Pain in the Breast, Lame Back and all Lameness and Pain. Such is Pratt's Anodyne Oil. Price, large, 25 cts; small, 50 cents. For sale by all druggists. Ask for Pratt's Anodyne Oil, and take no substitute.

PRATT'S NEW LIFE

The famous Vegetable Blood Purifier and Liver Invigorator, thoroughly purifies the Blood, speedily cures Scrofula, Skin Diseases, Heals old sores and ulcers and eradicates from the system all humors and disorders arising from impure blood. It stimulates the Liver and Kidneys, strengthens the whole system, operates mildly on the bowels, allaying all internal inflammation, and is the best Purifying, Regulating and Invigorating Remedy in the world. Price, $1 00. For sale by all druggists.

REAL ESTATE

REAL ESTATE

Now is Your Time to Invest.

STITZEL & UPTON,

REAL ESTATE BROKERS,

Corner Front and Washington Streets,

PORTLAND, OREGON,

Agents for the Sale of Blocks and Lots in

HOLLADAY'S ADDITION

TO

East Portland!

TO OUR PATRONS AND THE PUBLIC GENerally desiring to make SAFE and RELIABLE Investments in Real Property, we beg leave at this time to call your attention to this DESIRABLE TRACT, which has been subdivided into Blocks and Lots, and is now in the Market, to be sold in Alternate Lots and Blocks.

No one that has ever visited this body of land but what will say that it is the MOST ELIGIBLE for SUBURBAN RESIDENCES of any ever offered in this market, the land having a gradual slope from the River back to SEVENTEENTH STREET, there being scarcely any Block in the entire tract but what e.

Fair View of the City of Portland and Willamette River

Can be had. Another advantage this Property will have for Residences: no high water will ever affect the drainage of the city.

The Oregon and California Railroad Company's New Ferry Boat is now making Regular Trips from the foot of F street, Couch's Addition, to the Foot of Oregon street, Holladay's Addition.

IMPROVEMENTS TO BE MADE:

Aside from public Improvements now in contemplation by the Railroad Company, in the construction of Wharves, Warehouses and Machine Shops, quite a number of citizens will commence erecting fine Residences and Business Houses; also, Street improvements, under contract, by grading and planking Holladay Avenue for entire length, to connect with the Sandy Road. We can say that at least a Half Million Dollars will be expended in Permanent Improvements on this Addition the present season.

TERMS OF SALE—20 per cent. CASH down; deferred payments, six and twelve months, with interest at the rate of 10 per cent. per annum.

NO QUESTION AS TO TITLE

The Title to this property is undisputed, being a portion of the Donation Land Claim of Jacob Wheeler and wife. United States Patent issued, and conveyed by said Wheeler and Wife to Geo. W. Weidler.

Any Parties desiring to invest will find Maps and Plat of the property at our Office, or at the Office of Messrs. FERRY, RUSSELL & WOODWARD, and other LAND AGENCIES in the city.

STITZEL & UPTON

Offer for sale a large amount of PORTLAND and EAST PORTLAND RESIDENCE and BUSINESS Property.

A large amount of choice FARMING LANDS for sale situated in Multnomah, Washington, Yamhill, Polk, Benton, Lane, Marion, Clackamas and other counties of this State. For PRICE LIST call at our Office.

20-Acre Lot for sale, adjoining Holladay's Addition on the east. Apply to Stitzel & Upton.

5 and 10-Acre Lots for sale adjoining East Portland on reasonable terms. Apply to Stitzel & Upton.

5 and 20-Acre Lots for sale on the Macadamized Road three miles south of the city limits. Apply to Stitzel & Upton.

FARMS TO RENT.—We have a number of Improved Farms, situated in Washington county, from 14 to 20 miles of Portland.

☞ WANTED.—At this office, immediately, from 10 to three hundred Dwelling Houses, situated in Portland and East Portland. Tenants waiting patiently.

RELIGIOUS ITEMS.

The revolt against the dogma of infallibility is gaining strength in Germany.

The Presbyterian Memorial Fund Committee have received $1,083,448 to be devoted to the payment of church debts.

A majority of the clergymen of the Church of England now accept the doctrines of modern geology without reservation.

The religious society of German Baptists known as "Dunkers," derive their name from a corruption of the German word signifying dipping.

The Free Church of Geneva has a Confession of Faith in 17 articles, substantially like that of the Presbyterians, to which officers of the Church but not candidates for admission, are required to assent.

A gentleman having given $250,000 toward the erection of fifty Methodist chapels in London, on condition that an equal sum be given by friends outside the city within the next nine years, $125,000 has already been subscribed.

A movement is in progress to consolidate the Free Methodists and the Congregationalists in England and Wales. If accomplished, it will carry into the Congregational Church 300 ministers, 3,400 local preachers, and 68,000 members.

THE GERMAN RIFLE OF THE FUTURE.—The question of replacing the famous needle gun by a more perfect weapon is at present engaging the attention of the German military authorities. The advisability of such a change appears to be accepted as indisputable, and the choice is affirmed to lie mainly between the Chassepot and the Werder rifle. As for the former, we have heard it so frequently and unfavorably compared with the *zundnadel* by Prussians and obsequious special correspondents in the Prussian camp, that its recommendation by the authorities cannot fail to surprise. But now the war is over, and that some 600,000 Chassepots are in German hands, it is generally allowed to be the better gun of the two, not only on account of its lighter weight, but even more in consideration of its wider range and smaller bore, the latter enabling the man to carry a far greater number of cartridges about with them. The Bavarian Government finding the Chassepot to have the same claims as its own Werder rifle, and having, moreover, smaller number of men to arm and a proportionally larger number of Chassepots—viz., 25,000 to Austria—has resolved to adopt the French rifles for the use of its army. Prussia possesses some 536,250 Chassepots, which, though not sufficient for the whole army, line and landwehr, would go a long way toward arming the troops; that is the chief argument in favor of the Chassepot *versus* the Werder or Martini-Henry. The military authorities are opposed to the use of two different fire arms in the army, even though one was restricted entirely to the landwehr, and they therefore insist that whatever the new arm may be, it shall be served out to the whole army. As far as absolute superiority goes, our Martini-Henry is fully appreciated by the Prussians, and its only rival in their opinion appears to be the Werder rifle. As the cost of converting Chassepot into Werders amounts to no more than 1¼ or 2 francs, it is not unlikely that it will be selected as the weapon of the future.—*Pall Mall Gazette.*

A NEW ENGLAND CURIOSITY.—The venerable E. D. Munson, of Williston, Vt., (says a New England paper,) has completed his wonderful musical calendar clock. It is regarded as a wonderful production, and has attracted visitors from far and near. It is in every detail the handiwork of an old Vermont farmer who has spent his spare hours, in working upon it for the past eight years. He has produced an eight-day clock, whose dial marks the second, minute, hour, day of the week, day of the month, and year; a thermometer rests against its pendulum, giving the state of temperature; the ball of the pendulum contains a miniature time-piece, which derives its motive power solely from its vibration, position, and keeps accurate time. There is also a cylinder musical attachment, which may be set to play any one of seven tunes at the end of each hour. In this last feature it can be adjusted—and such was the intention of the maker—so as to play "Old Hundred" at the end of each hour on Sunday, and "Old Folks at Home," "Swiss Waltz," "Star Spangled Banner," "Hail Columbia," "Yankee Doodle," and "Sweet Home," respectively, on each successive day of the week. The entire mechanism is handsomely encased in a black walnut case, and measures ten feet high, twenty inches wide, and ten inches deep. The case is highly polished, and its front bears the inscription in raised letters, "Our Union Forever." "U. S." Munson, is sixty-two years old, and quite feeble.

A CONTRAST.—A committee of citizens of New York, who have recently investigated the books of the Controller of the city, among other important things, revealed the startling fact that it costs over $33,000,000 a year to govern New York; and that for the years 1869 and 1870 there were expended and stolen $102,000,000, or $51,000,000 each year! These New York thieves are prominent in stigmatizing the national administration as wicked and corrupt, though while they have been squandering a hundred and two millions in the government of less than a million of people, the national administration has kept the country afloat, paid the interest on the public debt, and saved over two hundred millions towards canceling the debt, and all that on collections not eight times as large as have been levied on the single city of New York by the villains who have seized on its offices and government.—*Sac. Union.*

A merry, light-hearted animal rushed into a citizen's arms at Savannah, exclaiming, "Oh, you are my long-lost brother!" She soon discovered her mistake, and rushed off in a confused manner, accompanied by her long-lost brother's pocket-book.

A Lafayette, Indiana, man amuses himself by pushing back hammers of guns with his feet and blowing in the nozzle to see if they are loaded. An interesting item is expected from that place soon!

FINANCE AND COMMERCE.

PORTLAND, Thursday, July 27, 1871.

Gold at New York, at latest quotations, 112; Currency is quotable at this city, at 80@¼ buying and 80c selling.

Exchanged—On San Francisco ½ per cent; on New York 1½ per cent; telegraphic transfers on New York, ¼@¾ per cent premium.

Interest—Bank rates, short loans, 1 per cent.

There is a little falling off in the supply of money available for all uses, though it would be an exaggeration to say there is any decided stringency in the market. At San Francisco money is reported plentiful, and while it shall remain so there is not likely to be any unusual or considerable drain from this market. In that market the highest quoted interest rate is 1 per cent, while loans are effected at 8, 9 and 11 per cent of ordinary institutions and private parties. It is unaccountable that rates are kept up here as high as they are, while in other markets, with which we are connected, the ruling rates are low.

There is evidently some slackening off in the volume of trade, this last week. The season for agricultural goods being mostly over, the absence of that trade has a marked effect upon the appearance of things. Hardware lines are transacting but little business with the valley country, the trade being mostly confined to the public works in progress and to the country east of the mountains. Trade in grocery lines is comparatively quiet, though larger in volume than for the corresponding period of last year. The dry goods market is still somewhat excited and all prices are holding firm. We have no quotations to change, however, in any of these lines.

Produce—Flour has declined again 50c per barrel, all round, extras being held at $7. The supply on hand is not very considerable, and the decline must be referred to the heavy stocks our shippers have put upon the San Francisco market within the last two months, which is mostly on hand at the incoming of the California harvest. The last steamers went away without taking a pound of flour—the first time, that such a thing has occurred in several years.

The reports from the harvest may be summarized thus: The late season grain nearly a failure, early spring sown, a middling crop, and fall sown, very full. The aggregate yield of the State will be fully up to that of last year, though less per acre.

There is nothing new, at all, in provisions.

The San Francisco *Commercial Herald* of the 21st has the following in regard to the grain situation:

"This far during July our wheat receipts of the new crop have largely fallen short of the general expectation, doubtless occasioned by the unwillingness of farmers to market their grain at present, preferring to wait later in the season when prices concerning crop prospects, particularly in the fields in the United Kingdom, coupled with spun uncertainty as to our own crop yield and the home requirement for seed. The extent of this latter cannot be known until late in the fall. Should we have but an ordinary prime rain falls, a very large breadth of land will then be sown, and the seed requirement considerably greater than in a dry season. These things operate to lengthen price-note a little.

In our last issue we placed the stock of flour on hand July 1st, 1871, at 78,500 bbls, chiefly Oregon brands. We have since seen a statement that the flour stock in Portland, Or., at about date, was 15,000 bbls. During the past harvest year we received from Oregon 179,536 bbls; from the interior of this State, 128,513 bbls—the former 53,000 bbls more than the year previous and the latter 61,000 bbls less. Now, then how much flour was manufactured in this city the past twelve months? Probably not less than 280,000 bbls, or it undeniably less than for the previous harvest year. One million do not like to see the Oregonians successfully competing for their legitimate trade, and measures to check the same are being taken, which will doubtless effect a serious change in this regard; improved patent machinery brought into play largely early reducing greatly the cost of manufacturing. Oregon has a ready opened a direct export trade with the United Kingdom, and more or less also been exported to foreign ports, and in the future we should look for increase in this direct trade abroad will naturally result. Vessels bringing cargoes of railroad iron, salt, etc, to Oregon, will naturally carry off cargoes of bulk flour at what in exchange, though it is believed that upon the completion of the Northern railroad to Oregon much of the produce of that State will be diverted inland while more or less will seek this market by rail. Therefore the Oregon farmer have henceforward isolated from available markets that the millers of that State have had large advantages during the long winter months, buying up wheat at very low rates, grinding it at their leisure, and holding it for the most favorable market, and at such a low cost as to defy all competition. Changes of some moment in this regard are imminent, and that at no distant period.

From the same paper we clip the subjoined items:

The receipts of certain articles of Oregon produce from January 1st to date, have been as follows: Flour, qrsks 156,851; wheat, sks, 4,923; salmon, bbls, 3,183; hf barrels, 987; pkgs, 16,062; bacon, pkgs, 2,116; beef, bbls, 105; ca., 38; hams, pkgs, 894; butter, pkgs, 645; lard, pkgs, 414; pork, bbls, 1,216; dried apples, pkgs, 3,057; rye, sks, 54; oats, 27,450.

Oats—The market is quiet under the influence of light receipts and no export demand. Purchases for the week, in lots, aggregate 5,000 sks; at $1 57½@2 per ctl.

Bran and Middlings—The supply is more free. Mill prices, $30 per ton for former, and $40 for latter, in sacks.

Potatoes—Under the influence of heavy receipts, the market is dull and lower—80@85c per 100 lbs in rolling stock.

Onions—Receipts of the new crop are considerable and prices have declined to 87½@$1 12½ per 100 lbs, the latter for choice silverskins.

Leather—There has been a steady Eastern demand for two years or more, with considerable shipments of rough. The local demand for manufacturing purposes is steadily increasing at prices remunerative to the producer.

Tallow—The market is but poorly stocked. The demand is active at 8½@9c; some holders, pro. ably, higher rates.

Hides—There continues a good demand for the East, with sales of dry at 17@18c; extra choice slaughterers' stock; 18½c; dry salted, 8@9c.

Wool—There is very little business doing for the want of supplies. Oregon sells freely to the extent of receipts at 40@42c. The *Morning Call* says: "A few sales have been made which may be taken indicative of the extent of the fall clip will bring. A lot of fall of 1870 sold at 28c, and a lot of this season's lambs' at 31c per lb. The wool sent by rail from this city for six months ending June 30, 1871, was 10,857,109 lbs.

Dairy Products—Liberal supplies by rail have a depressing effect upon home supplies. We quote fresh roll at 25½@30c, which is a decline; a few extra choice dairies are held higher; prime California firkin continues at 20@23c. Cheese is in liberal supply; factory quotable at 13½c, by the car load; California, 10@14c; extra choice factory dairies, 16@16, in a jobbing way. Eggs are plentiful; we quote California, 37½c. The Oregon steamer brought about 900 dozen, and sold at about 32c. Chicago eggs are quite unsalable.

Markets.

[BY TELEGRAPH.]

SAN FRANCISCO, July 27.—Flour—Unchanged; fair demand for superfine.

Wheat—200 sacks of fair now sold at $2 17½; 600 sacks of good, now at $2 20; 200 sacks of choice now at $2 22½.

Barley—300 sacks of new feed sold at $1 60; 400 sacks of choice old at $2 05.

Oats—400 sacks, light to good, in jobbing lots, sold at $1 82½@1 90.

Hay—Three cargoes sold to-day at $17@20.

Potatoes—Good descriptions quoted at 60@65c, the latter a full figure for favorite marks; 200 sacks of Half Moon bay sold at 80c.

No. 75 First Street

(Near Ladd & Tilton's Bank,)

PORTLAND, OREGON. dtf

Seals and Cross cutter, but there are no dissenters from the general principles, that a great medicine is a great blessing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

TARRANT'S EFFERVESCENT SELTZER APERIENT

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific principles, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrific preparation, and an admiral remedy for all bilious complaints. Let there be no mistake. Secure the genuine article only.

SOLD BY ALL DRUGGISTS.
